Consultant – Healthcare Technology (Health Technology Assessment)

National Health Systems Resource Centre (NHSRC) has been set up under the National Health Mission (NHM) as an autonomous registered society, to channelize technical assistance and capacity building support to the states for strengthening the public health system. The NHSRC is also mandated to contribute towards National strategic health planning and programme design. Work at NHSRC is organized around multiple divisions, namely – Community Processes, Quality Improvement, Public Health Administration, Healthcare Financing, Healthcare Technology and Human Resources for Health.

If you have a commitment to health equity and excellence, here is a unique chance to work with a team committed to shaping the public health landscape in India. The position offers you an opportunity to participate in the process of strengthening health systems, improving health service delivery and enabling positive health outcomes. Working with a trans disciplinary team, you can discover, adapt, co- create and disseminate solutions to multiple challenges related to service delivery systems, universal primary health care, human resources for health, community processes, health financing, quality of care, public health planning and health promotion.

NHSRC intends to engage Consultant - Healthcare Technology (Health Technology Assessment) purely on contractual basis for the period mentioned in the contract.

Roles & Responsibilities:

- Undertaking literature review on healthcare technologies
- Collecting information on efficacy of technologies based on published data from trials, studies and product package inserts.
- Framing the model parameters and conduct primary data collection for the research
- Analysis of data/market research on technology costs and pricing
- Review of safety aspects of technologies based on secondary literature
- Review of legal, ethical and social impacts of healthcare technologies
- Writing of Health Technology Assessment Reports
- Undertake other assignments, which may be assigned from time to time in the division or required by Executive Director, NHSRC

Competencies and Experience:

- Graduation in Engineering / Biological sciences / Medicine / Clinical Research. A post-graduation in relevant discipline is desirable.
- Training/Experience on Health Technology Assessment including systematic review and health economic modeling.
- Minimum 2 years of relevant work experience in Health Technology Assessment
- Published work in the area of health technology assessments or Economic evaluation or meta-analysis of published studies/trials on devices is desirable.
- Previous experience in compilation of health technology assessment reports is desirable.
- Computer proficiency with high level of familiarity with commonly used packages like MS Word, Excel, power point & Web surfing to search relevant data & documents.
- Good communication and presentation skills, excellent oral and written communication skills in English.
- Knowledge in Health systems development desirable.
- Willingness to travel to states & districts to collect technical information and ability to subsequently synthesize information into research evidence.

Formal educational qualification and experience could be relaxed when there is published work of high quality or whenever there is work experience of specific relevance.

Age Limit: 40 years (As on last date of receiving applications)

Location: New Delhi with willingness to travel on need basis

Consultancy Fee Band: Between Rs. 60,000/- to Rs. 1,20,000/-

**Fee offered within the band will be commensurate qualification and experience*

- Candidates selected in this interview could be considered for other vacant positions at NHSRC requiring similar skill sets and at appropriate level.

To Apply: Candidates are requested to download the application form attached with the TOR, which is uploaded on the NHSRC website and email the duly filled application form to recruitment.hct.nhsrc@gmail.com **only by 01-October-2020**. Applications submitted in other formats or through other channels with an intent to influence may be a reason for rejection. Please ensure that the post applied for is clearly mentioned on the application form, without which the application form will not be accepted
